# SAUK COUNTY FARMERS' DIRECTORY

PUBLISHED BY
PFEIL & SELBACH
PORTAGE, WIS.

ONE DOLLAR PER COPY

NOTE: The style adopted is uniform throughout the book. First comes the name of the land-owner, followed by his post-office. It should be kept in mind, however, that most of the farmers get their mail on rural routes, and the postoffice given is that from which their mail is distributed. Then follows the number of acres owned, with the section number following, and last is the valuation of the property as fixed by the assessor.

# THE PUBLISHERS SAY:-

WE take pleasure in presenting this, the first issue of the Sauk County Farmers Directory, to our patrons and the public, with the belief it will be conceded to be the most complete and comprehensive ever published here. It has been a work of considerable labor, and the work has been prosecuted with the determination to secure the best possible results. The publishers have personally conducted the canvass and compilation, trying to avoid the errors which will generally creep in when this part of the work is left in the hands of uninterested parties. The Directory shows a large increase in population of the county and is an excellent criterion of the substantial prosperity and material advancement of the county in all branches of industrial wealth and agriculture, and is invaluable for ready reference.

In returning thanks to the different business communities who have made this Directory possible through their liberal patronage, no less than have the members of the farming districts who, with their encouragement and appreciation proved to us that this Directory is a necessity in this county, we can only say, "We thank you."

This Directory is intended for the use of Farmers and Business Men, contains a COMPLETE LIST OF THE FARMERS OF SAUK COUNTY, Wisconsin, giving Name, Section Number, Number of Acres owned, Assessed Valuation, and Postoffice of every Farmer in every township of Sauk County.

Sauk County is noted for its high grade stock; its educational system; its diversified crops; for the high average value of its farming lands; for its creamery products; its good roads, and for its intelligent handling of all matters of communal betterment.

We like to point to these matters rather than to its wealth per capita, which is above the average. Its numerous fine churches, schools and public buildings are noteworthy. Its market towns are busy communities and in any of them the seller obtains a square deal every time and all the time.

We would like, too, to say more than a few words about the good feeling and get-together spirit manifested in every part of this county, but space forbids. There is room to say here that Sauk County is one of the best in the state from any and every point of view.

Ford
THE UNIVERSAL CAR

*Most of the Pleasure* In owning an automobile lies in being able to drive it and take care of it yourself. You can do this with a Ford. Expert mechanical knowledge is not required to successfully run and care for Ford cars. This feature keeps you from the repair shop and keeps the expense down. Besides, any member of your family can drive a Ford. The Ford Sedan delights women who drive, having the luxury and exclusiveness of the electric. See it at our salesroom.

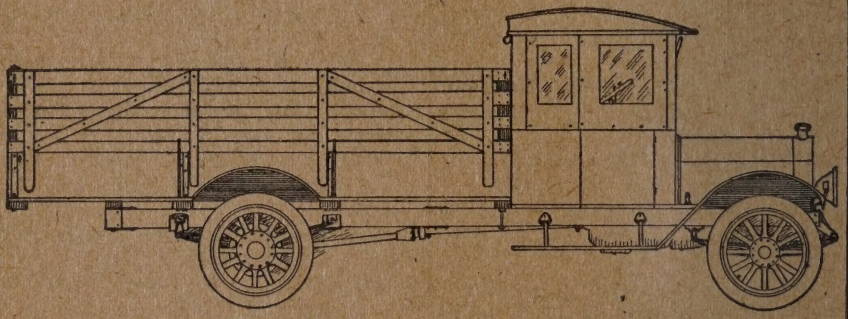
# The Wisconsin Dairy Truck

*The Wisconsin Dairy Truck is designed and built to meet the every day requirements of the Dairyman and Farmer.*



## Price $1,850.00

It will handle the occasional big two-ton loads satisfactorily, and yet it is light enough and quick enough to handle the light farm hauling on a more efficient, time saving and economical basis than is possible with any of those Trucks which are designed and built for city use.

The price is very moderate and includes electric lights and starter, a very fine cab, and an especially designed DAIRY TRUCK BODY; also tools, jack, etc. It is handsomely finished and runs as smooth and quiet as the finest Touring Car.

Ford
THE UNIVERSAL CAR

*Most of the Pleasure* In owning an automobile lies in being able to drive it and take care of it yourself. You can do this with a Ford. Expert mechanical knowledge is not required to successfully run and care for Ford cars. This feature keeps you from the repair shop and keeps the expense down. Besides, any member of your family can drive a Ford. The Ford Sedan delights women who drive, having the luxury and exclusiveness of the electric. See it at our salesroom.

*Most of the Pleasure* In owning an automobile lies in being able to drive it and take care of it yourself. You can do this with a Ford. Expert mechanical knowledge is not required to successfully run and care for Ford cars. This feature keeps you from the repair shop and keeps the expense down. Besides, any member of your family can drive a Ford. The Ford Sedan delights women who drive, having the luxury and exclusiveness of the electric. See it at our salesroom.

## The Page American Milker

**Is not an Experiment. It is one of the oldest milkers in the world. It is the only milker made that draws the milk from the cow just as the calf does it, viz., with gentle suction and downward squeeze, followed by a period of complete release. By its gentle natural suction it draws the milk rapidly without the least injury to the cow. That is why the foremost breeders and dairymen throughout the country show a preference for the American Milker. It is safe sanitary, simple, durable, easy to clean, and always ready for use.**
